LIGHTFOOT'S LAUGH STIRS JUDGE DE BOLT JAPAN REFUSES CHINA'S LAST REQUEST

HAS SNEERS FOR POLICE FORCE

LIGHTFOOT ON ESCAPE OF HATA

Negoro Recently With Man Wanted by Police—Judge Objects to Attitude of Attorney—Sentencing Sycophants of Kahuku.

An attempt was made this morning in the conspiracy trial before Judge De Bolt to renew the direct examination of Negoro on the force and effect of certain words appearing in the Jiji complained of by the prosecution. It turned out, however, that the defense was not prepared with their data, and that phase of the case went over, after some discussion, to the next session of the court, tomorrow. Kinney thereupon resumed his cross-examination. He brought out from the witness that the witness, after writing out in Japanese the usual draft of the demand of the Kahuku laborers with his co-defendants to Kahuku, where they attended a large meeting of strikers, and spoke at some length. On close examination he admitted that while at Kahuku in close conference with certain of the local strike leaders his co-defendants, Makino, Tasaka and Soza advocated withdrawing the sentence of being a sycophant as to one of the four men who had been declared sycophants and ordered to leave the plantation in three days. Negoro would not admit that he directly opposed the plea of mercy for this one man, but did admit that he spoke in a general way against any exceptions being made in favor of any sycophant. He admits that his remarks followed the plea of mercy made by his co-defendants, and admitted that as a matter of fact the sentence passed by the laborers was not withdrawn against the man in question, that issue being finally left to the strikers, he, however, not having withdrawn his remarks or views. The prosecution evidently introduced the evidence to show that the defendants not only advised in a general way, the expulsion of all sycophants, but actually took part, at least at Kahuku, in a meeting of strikers, who then and there actu-

MAUI SCHOOL HOUSE; PAINT—NO TEACHER

SUPERVISORS VOTE TO
BUILD NEW SCHOOL HOUSE

They Have no Teacher—One Teacher Refuses to Allow County Official to Put His Brand of Paint on House.

(Special to the Bulletin.)
WAILUKU, Maui, Aug. 6. — At the last meeting of the Maui Board of Supervisors \$21,000 was appropriated for new school houses and repairs to school houses for the six months ending Dec. 31, 1909. The County Fathers believed that they had done their duty in appropriating that amount. The first thing they did was to build a new school house at Kailua, where it is absolutely necessary, as there are nearly thirty children over there awaiting a school house. But the Commissioners of Education did not have sufficient money to employ a teacher, so the building will stand without a teacher until the commissioners see their way clear to send one for the children. Some of the school houses put up two or three years ago are now badly in need of repairs and repainting and a large amount will have to go that way. But the Board of Supervisors are having trouble with some of the teachers who are appointees of the Commissioners of Education and are therefore in no way responsible to the County Fathers. Some of the teachers claim that they have not received instructions to allow representatives of the County Fathers to even enter a Territorial building, such as a school house, therefore the necessary repairs will not be attended to until the required passes are obtained from headquarters in Honolulu. Some of the school buildings are in need of repainting.

Road Superintendent W. E. Bal of Wailuku District employed a painter one day this week to paint a certain school house in his district. The painter went with his paint pot and brush, and when he arrived at his

COMPROMISE ON RESERVATIONS

At the time military operations began at Diamond Head, Governor Frenar made an official request on behalf of the Territory to the War Department that two sites, one on the southwest side and one on the northeast slope of Diamond Head be retained by the Territory as reservoir locations, and not be included in the military reservation.

Major Winslow has just received from Washington a general order issued by the War Department, the sense of which is that the site on the southwest slope, embracing about five and a half acres, has been returned to the Territory, while the location on the northeast corner has been refused. It therefore means a compromise on the part of the Secretary of War in considering the request of the Territory, in which the latter gain one reservoir site and lose one.

NAKAMURA AGAIN IN TOILS OF LAW

Released from the law's grasp by the verdict of not guilty, decided upon by a Federal jury only a few days ago, Kitchitaro Nakamura was again taken into custody today for perjury, on a complaint sworn to by United States District Attorney Breckons. The Japanese, who had been acquitted on a charge of importing women from Japan for immoral purposes, swore at the Immigration Station that one Myo Takijawa, "otherwise known as Myo Nakamura," was his wife, which, declares the complaint, was done knowing that it was not the truth. Hence Nakamura will again find himself in the same court from which he was lately released.

PIONEER ADVANCING

Wailuku was let down a little this morning on the Stock Exchange. There was no reason for it particularly, except that some people think the stock should sag back a little and get a new start. Then it will go to \$115. Pioneer is the stock, jumping just at present. After selling at 177½ on Saturday, 180 was the lowest figure at which it could be obtained today and it sold for that in blocks of twenty-five. Hawaiian Commercial is fast making a new record, selling on the Board today at \$3.25. Many orders for McBryde and Olan at the market price are reported coming in from the country districts. San Francisco market is reported as strong with increasing interest in the general list.

GETS ONE YEAR.

Harada was this afternoon sentenced to one year in prison after having pleaded guilty to violating the Edmunds Act. A three days' argument and examination of witnesses has been held to determine the sentence, which was given by Judge Dole. Judge Woodruff is now trying his first case, that of Morimoto.

Rival Phone Men On Korea

That the Mutual Telephone Company has been figuring on an automatic telephone system for Honolulu has evidently reached the ears of the Bell Company at San Francisco, for it is now known that the general manager of the company in the coast city is on the Korea bound for Honolulu and will reach here August 11.

As Platt, the representative of the automatic telephone interests, is on the same boat, it looks as if there would be an interesting time when the rivals reach here. The directors of the Mutual Company decided to send for Platt in order to have him lay before them a comprehensive demonstration of the automatic system, its cost and equipment. The Bell Company's manager will use every effort, no doubt, to discredit the automatic system and persuade the company here to continue with the present.

George R. Carter said this morning: "Yes, we have learned the Bell manager is on the same steamer with Platt. Evidently the former intends to do some talking for the present system, although he may be coming on a vacation. However, we sent for Mr. Platt, and he will be here on the 11th."

A big fight has been on for years on the mainland between the Bell Telephone Company and the Automatic Company, and in many cases the trouble has been carried into court and thousands spent in the battle for supremacy.

"It may result," said Mr. Carter, "in our getting the very best system for Honolulu. Rivalry is a good thing in business."

\$125,000 FOR NEW CHAMBER

Circular Issued by President Setting Forth Scheme for Raising Money—Applications Already in for Ground Floor.

Plans for the new Chamber of Commerce building are rapidly maturing, and a general circular letter was issued today by the president and sent to the members. Attached to the letter is a prospectus showing monthly receipts and expenditures.

In order to provide the necessary funds to carry through the enterprise it is proposed to receive cash donations from such members and friends having Hawaii's prestige at heart as may be able and willing to contribute and issue shares of building.

SHEBA IS ABLE TO LEAVE BED

Editor Sheba, who narrowly escaped assassination last Tuesday because of his opposition to the program of the Higher Wage Association, is in the last stages of convalescence at the Queen's hospital. Inquiry at the hospital this afternoon brought the statement that Sheba was able to leave his bed and could be expected to be released from the hospital within the course of the week.

BISHOP ESTATE WILLING TO LEASE

The trustees of the Bishop Estate have written to the Department of Public Works fixing the price on the land at the corner of Nuuanu and Pauoa streets at \$12,000. There are a little over two acres in the tract.

Concerning that ground which has been known as the Atkinson Park at Kakaako, which the Territory wished to purchase, will not be sold by the Estate but they express themselves as willing to give a long lease at a nominal price of one dollar a year over and above taxes.

National Guard Armory Assured

Report Made By Special Committee Favorable To Project—Money Will Be Raised By Popular Subscription—Territorial Government Will Donate Site

The National Guard of Hawaii are now assured of a new Armory. George W. Smith, chairman of the special committee appointed by the Merchants' Association to investigate the matter, today sent his report to Vice President Walter Dillingham, which is favorable to the project, and gives assurance that the Territory is willing to give a suitable site for building an Armory.

A special meeting will be called in the near future at which the report will be taken up and passed on. The \$50,000 required to erect a building will be raised by popular subscription and committees will be selected to take special charge of the detail work. Plans and specifications of several buildings are under consideration. Several sites have also been looked at and will be discussed at the meeting.

WILL SEARCH FOR SCHOONER

When Inspector Houston leaves on the Kukui tomorrow for Hawaii for his regular quarterly inspection trip of lighthouse stations on the island, he will also search for the lost schooner Ada, which has been missing for twenty-six days, en route from Hilo to this port loaded with scrapiron. The schooner is owned by Alec. Dowsett, valued at \$2000. He has failed in securing any satisfactory clue as to the boat's whereabouts, and now believes she has gone to the bottom with all aboard.

It has been learned that after the Ada left Hilo, the captain put in at Faahau landing about the time a storm swept through this section. Inquiry at that place however failed to disclose how long the Ada remained there, other than she ran into the landing, tied up and the crew were ashore for some time. As to when she left there has not yet been ascertained. Dowsett thought at first the crew had put in for a picnic or spree but he has now given up that idea, and fears that the vessel with her crew is lost. Inspector Houston will make close inquiries and do all in his power to find out anything possible about the ill-fated schooner.

Chang Kim, ex-Chinese interpreter of the Circuit Court, went down to Kalaupapa this morning in company with Mayor Fern, on Chinese business. He will return this afternoon.

China Is Seeking Delay

TOKIO, Aug. 9. — The Chinese government has asked that the work on the Antung-Mukden railway by Japan shall be suspended pending further negotiations. Japan responds with the declaration that the matter is finally closed and no further negotiations are necessary. China virtually concedes the reconstruction of the railway, but wishes a further understanding as to its control.

Irrigation Urged By Taft

SPOKANE, Wash., Aug. 9. — The Irrigation Congress convened here today with the largest representation of States and Territories ever assembled since the national movement was started. President Taft sent a message to the delegates in which he commended the purpose of the Congress.

Turkey Refused

BERLIN, Aug. 9. — It is stated here with semi-official authority that Greece will refuse to renounce its right to the island of Crete and will refer Turkey to the European powers.

Farmers Appeal

STOCKHOLM, Sweden, Aug. 9. — The strike conditions have reached such a serious state that the Farmers' Association has appealed to the people to help save the crops. Refusal of the farm hands to work will not only cause great loss to the farmers, but bring starvation to the poorer classes in the winter.

Amoy Plagues

AMOY, China, Aug. 9. — There have been 103 deaths from bubonic plague in this city during the last two weeks and fifty from cholera.

Neatly Dressed Men

Are always held in higher esteem than those who are less particular. It's because the clothes reflect, to a large degree, the tastes and character of the wearer. It is easy to keep well dressed if you wear Benjamin Clothes.
